Subject: NN NPL request

Martin - Region 9 SF management is trying to track down the draft response to the Navajo Nations letter requesting NPL listing (request from Clancy Tenley below). If I recall you were going to ask Woolford to coordinate with Region 9 on this. Can you let me know if this happened or if I should reach out to Woolford directly. Thanks I let Clancy know we would get back to him today.

Johanna

Subject: RE: Animas River watershed plan

Hi Johanna. I heard there is a draft response to Navajo Nation regarding their request to list Gold King. Could you shoot me a draft? Thanks much.

Thank you Johanna. Great idea. I will reach out to Ben Banipal and Lisa Price in Region 6. Lisa will be in Denver for another meeting, and may be able to stay. Robin Richardson and Rafael Stein are also in Denver, and I understand they may stay over as well.

Subject: FW: Animas River watershed plan

Clancy - I see you have invited some folks from HQ so I will set up a conference line -- wondering if it makes sense to extend an invite to Region 6 and if so your thoughts on who would be appropriate. I think it would be beneficial to share information as to where Region 8 is with our outreach in talking about NPL listing as a means to address the numerous sources in the upper animas. It would also be good to get feedback from both regions on this topic. Your thoughts? Johanna

The national risk based priority panel is meeting in Denver on the 3rd and 4th, so I will be tied up. Possibly early on the 4th could work.

Hi Johanna and Bill. I don't think we've met; I'm one of your counterparts in Region 9. I spoke with David today about getting together with you to learn more about work being done with other jurisdictions to assess and remediate mines in the Animas River watershed. As you might have heard, Navajo Nation has asked for a plan to reduce long term discharges that flow from the Animas to the San Juan. It will help us in our interactions with them if I understand more of what work is already being done. If you'd like I can also give you a very brief summary of our 5 year plan for dealing with 500 uranium mines on the Navajo Nation. That's the plan they are familiar with so I'm sure it will color their expectations. I'll be in Denver November 2nd and 3rd for a meeting with DOE, Robin Richardson, and Raffael Stein, and it would be no problem to extend a half day if you are available the morning of the 4th. Let me know if this works for you. Thanks very much.

Clancy Tenley
